

## ABOUT US

Diagnostic Imaging Northwest (DINW) is a collaborative alliance between TRA Medical Imaging and MultiCare Health System. DINW provides diagnostic radiology services at four locations throughout east Pierce County. Supported by a team of fellowship-trained radiologists specializing in areas like neuro radiology, musculoskeletal radiology, breast imaging and pediatric radiology, DINW is able to provide exceptional care through a wide-range of services: MRI, CT, Ultrasound, 3D Mammography, DEXA (bone density scan), Fluoroscopy, and X-ray.

## DIAGNOSTIC IMAGING CENTER OF EXCELLENCE

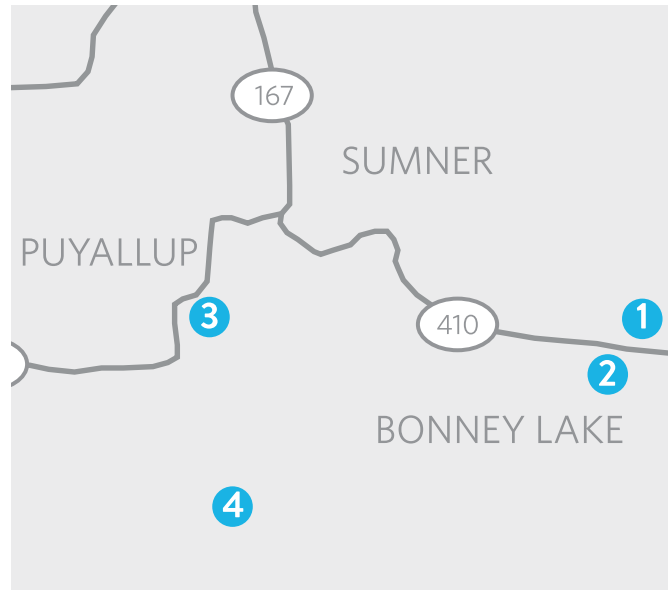

Diagnostic Imaging Northwest outpatient locations are designated Diagnostic Imaging Centers of Excellence (DICOE) by the American College of Radiology.

DICOE goes beyond the American College of Radiology's gold standards, and is an elite distinction that is awarded to practices who have demonstrated a commitment to providing the safest and highest quality care.

# HIGH QUALITY CARE AT AFFORDABLE PRICES

## YOU HAVE A CHOICE

When it comes to medical imaging, you can choose where your exam is performed. While your health care provider may make a recommendation, where you schedule your appointment is up to you. Explore your options to make the most informed decision about your care. We think you will find that Diagnostic Imaging Northwest offers the most affordable, highest quality care in a welcoming environment.

## WHY CHOOSE DINW?

- We never charge a facility fee, which can raise the price of your bill.
- We negotiate lower rates with insurance companies.
- We offer flexible payment options.

## PRICE ESTIMATES

Before scheduling your next imaging exam, verify with your doctor on the specifics of your exam, and consult your insurer about coverage. Then call DINW at 855-271-2416 to request an exam estimate. Our dedicated Financial Counselors can assist you with your specific needs.

## WHAT TO KNOW ABOUT YOUR EXAM ESTIMATE

DINW can provide cost estimates for the specific procedures requested. Many factors will influence the actual amount of the final bill, including whether your health care provider finds it necessary to perform more, fewer, or different procedures at the time of service. There may also be other services required, such as laboratory or pathology, resulting in additional charges. Because these factors must be taken into consideration, we can only provide estimates in ranges.

## FINANCIAL ASSISTANCE

We are committed to the treatment of all patients, regardless of ability to pay. That is why we offer financial assistance to those who are eligible, based on the current Federal Poverty Guidelines.

If you qualify, our program offers:

- Financial assistance for services performed at any DINW-managed facility
- Sliding-scale fees based on income eligibility
- Payment plans
- Financial Aid Grant Matching

Qualification for a health insurance program will not bar you from participating in our financial assistance program. Our program may cover the deductible or coinsurance, if eligible, and may cover charges for participants not eligible for insurance.
